IN THE SHADOW OF THE BRIDGE: 4000 YEARS OF OCCUPATION

Ron Williamson, Archaeological Services Inc.
Thursday, March 14th, 8:00 PM

Ooooooh, this is one you won't want to miss! Caches of Broadpoints, juicy Early Woodland features, and tons 'o cool stuff were documented during ASI's salvage excavations by the Peace Bridge in Fort Erie. Ron and company are just now wading through all the material, so here's a first chance to find out about one of the more important sites to have been investigated in recent years. So come on out for our speaker night, **NOW HOSTED AT THE LONDON MUSEUM OF ARCHAEOLOGY**, at 1600 Attawandaron Road (near the corner of Wonderland and Fanshawe Park Road in the northwest end of the city). Anyone interested in a getting a ride to the Museum from UWO, please see the note inside. Meeting time is 8 PM (and we mean 8 PM, not 8:30....Harri!)

April Speaker Night: April is member's night, and we still need a couple of volunteers. So let Chris Ellis know ASAP. Then mark April 11th, at 8 PM at The London Museum of Archaeology, for a bountiful feast of information and ideas from your fellow members!

Don't forget:

EXECUTIVE REPORT

The Executive has been busy packing boxes and planning for our move out of Grosvenor Lodge, back to 55 Centre Street. Lots of memorabilia have been pawed over - 20 years is a long time to collect stuff! Hopefully the Executive will be able to pare down the Chapter's burgeoning file cabinets (do we really need to hold on to everyone's response to the Bus Trip questionnaire sent out in 1985?!).

Activity in the Occasional Publications Department has been fast and furious lately. *Deeds/Nations* has been at the printer for a couple of weeks now, and we should be ready to pick up finished product by the end of the month (a flyer for orders of this book will be included in the next issue of **KEWA**). This has freed Neal up to co-ordinate work on the other two backlogged manuscripts in our coffers: Jackie Fisher's Adder Orchard report, and Ron Williamson et al's Myer's Road report. Mike Spence and Chris Ellis are helping pull the manuscripts pulled together, so the Chapter is very optimistic over relatively soon release dates for those manuscripts (I'd say summer or fall of 1996, but I don't want to jinx things!). Keep your cheque books handy!!!

Further to Peter Denny's Announcement of a presentation at UWO last month:

Cultural Geometries and Perceptual Salience: The Intersection of Anthropology and Psychology in Form Analysis

Dorothy Washburn

King's College, Back Student Lounge (266 Epworth Ave.) Monday, Feb. 26, 7 PM

Dorothy Washburn is an archaeologist who has published on symmetries in the design of textiles and ceramic decoration. Some question's she's looking at include are there universal kinds of object form features that we can say all cultures use to identify and assess form? Can we know in what way these features are salient (ie. what is the cultural meaning of such features)?

SOCIAL REPORT

As announced last month, If any students or other Chapter members find it difficult to get to the Museum for speaker nights, the Chapter will co-ordinate a **SPEAKER NIGHT SHUTTLE** to and from UWO. **But we must know in advance!** So, if you're interested, see Chris Ellis or Andrew Nelson in the Anthropology Department at UWO. Or call them at home (their numbers appear on the cover of **KEWA**...Andrew by way of Christine, of course!).

EDITOR'S REPORT

We start off the 1996 year - our 20th year of existence - with an issue of lists. Our thanks to the ever busy Phil Woodley for providing us with the leg work on this! Enclosed is an up to date listing of what we have published in **KEWA** over the years. This includes a compilation of research articles by author, which we hope should prove useful to those of you who regularly refer to your back issues. As you look over the various lists, if you happen to feel a twinge of guilt or remorse over the absence of your name, length of time since your last contribution, or want to revive the point type series or nineteenth century notes, we are more than happy to accommodate any submissions!
